

website credits

Donita Brown

curator with oversight of emeagwali.com since June 1993.

Philip Emeagwali

built the 1980s FTP version at think.com [The 3rd registered dot com. Emeagwali was logged on 24/7/365 to think.com]

built the gopher version while at umn.edu [gopher was invented at the Univ. of Minnesota]

built the web version at acm.org

1980s History

Continuously evolved from CSNET to BITNET to File Transfer Protocol sharing of Emeagwali's 1057-page Gordon Bell Prize Report and biographical info.

Since the Net predates the Web, **emeagwali.com** existed before the Web and is sometimes credited as the first personal website [i.e. NETsite].

The United States Trademark Office credited a "First Use" date of June 22, 1989 for emeagwali.com.
